

# Table Soccer

## An indoor, non-contact "bored" game

For those unable to travel to France (or unable to get accommodations) Table Soccer is the next best thing to being there.

### Suggested Table Soccer Rules

Table Soccer is played by two players taking turns "kicking" (flicking with a finger) the "ball" (folded triangle) into a goal enclosure. Game is concluded when your manager shows up.

A goal is counted when, after the "ball" is "kicked" and comes to rest, any part of the soccer ball graphic breaks the plane of the opponent's goal enclosure. It is not a goal if only an edge of the triangle, but not part of the soccer ball graphic crosses the plane.

The first player (determined by coin toss) begins the game by kicking off. For a kick off, the "ball" is placed anywhere along the middle line (the white line running through the circle in the center of the field). Once the "ball" is placed, the opponent then positions one finger anywhere within the rectangular goal area to defend his goal. Once in place, the ball and the finger must remain stationary until the "kick". NOTE: a finger may be used to defend a goal ONLY during a kick off, not when the ball is in play.

If the kick off scores a goal, then the second player kicks off toward first player's goal. A kick off follows every score. If the "kick" comes to rest outside the goal, the "ball" changes possession and is "kicked" from where it stops. When the "ball" is in play, goals cannot be defended. If the "ball" goes out of bounds, the "ball" changes possession and is "kicked" from the white line where it left the field. Since the "ball" is in play, the opponent's goal is not defended.

### Assembly Instructions

#### Ball and Goals

- 1) Print this page.
- 2) Ball: Cut out the shaded area of the ball, and fold three times (maintaining a triangular shape). Tuck in the remaining flap to form a triangular "ball" with soccer ball graphic on both sides.
- 3) Goals: Cut out the shaded area of the two goals and fold per instructions.

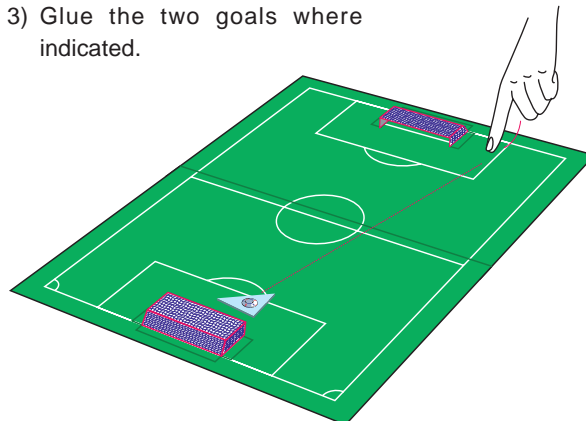

#### Field

- 1) Print two copies of page two on heavy paper .
- 2) Glue together the two halves, overlapping the mid field line.
- 3) Glue the two goals where indicated.

## Ball

## Goals

glue area for goal

glue area for goal

glue area for goal

Apply glue in this area for one half of the field

On the other half of the field, cut along the dotted line and overlay the field onto the first half (with glue).
